

FINAL REJECTION

Patent application No.	H08 Toku-Gan No. 267165
Date of draft	H16(2004) November 29
Patent examiner	SAKAI Yasunobu 9190 5B00
Title of Invention	Electronic equipment
Patent applicant	DENSO Corporation
Patent attorney	ADACHI Tsutomu

This application is to be rejected by the reason of notice of reasons for rejection dated on December 5, Heisei 15 (2004).

Although the contents of arguments and amendment of proceedings are investigated, the reason for reversing the notice of reasons for rejection cannot be found.

REMARKS

The applicant insists that the argument of "The cited reference 1 (Japanese Patent Application Laid Open No. H07-311603) discloses the contents that the examiner pointed out by the notice of reasons for rejection dated on December 5, Heisei 15. On the other hand, although the cited reference 2 (Japanese Patent Application Laid Open No. H03-137760) discloses "before transmitting memory data from the transmission-side equipment to the reception-side equipment, the communication speed is decided and altered by communication speed information data between the reception-side equipment and the transmission-side equipment," the
